In an effort to engender greater awareness, transparency and mainstream legitimacy to a rather misunderstood capital market, Public Company Management Corporation (OTCBB: PUBC) has established a leading indicator index for the Over-The-Counter Bulletin Board (OTCBB). The PCMC 30™ is comprised of 30 stocks that were selected based on a host of qualitative and quantitative criteria, such as, but not limited to: (1) three month average trade volume, (2) market capitalization, (3) historical stock price, (4) shares outstanding, (5) estimated float, (6) sales, (7) operating history, and (8) sector/industry diversity. Due to the lack of trade activity, many notable OTCBB stocks were omitted, such as Publix Super Markets Inc, the largest market capitalization OTCBB constituent (\$15.9 billion market capitalization). The PCMC 30™ is subject to change without notice; certain events like migration to a mainstream exchange or other factors may be a catalyst for the removal or substitutions. Data is 20 minutes delayed. \*\*

a proven stepping-stone to  
NASDAQ and AMEX

OTCBB creates a capital structure  
that is Wall Street-acceptable

Helps maximize a company's  
market cap value

# PCMC

PUBLIC COMPANY MANAGEMENT CORPORATION

\*\*Neither the companies discussed in this paragraph nor the current companies listed in the index are clients of PCMC and PCMC does not own any of their securities. The displayed index only reflects a partial list of the entire PCMC 30™. While the PCMC 30™ does not represent the entire OTC BB, it does show the potential for significant returns in the universe. Due to illiquidity and volatility of many otcbb stocks, the PCMC 30™ Index can be subject to sharp performance swings.
